

# Cloud Services

Every day, more and more businesses move to the cloud. Cloud computing is fast becoming the new normal, and for good reason. It offers the kind of flexibility that lets your enterprise be dynamic and agile, and your employees collaborate from anywhere. It provides backup and recovery options that save time and cuts out hardware requirements that cost money. When you're running in the cloud, automatic software updates let you focus on growing your company and enterprise-class technology is at your fingertips at a fraction of the cost.

The question is how to get there. With ANEXIO, it's easy.

ANEXIO first works with your company to help you understand cloud computing and how your business could benefit from it. Then we take a customized approach, promoting and supporting services that bring value to your company and improve on what you currently have.

With a smart look at what is working and what could be improved for your unique company, ANEXIO creates a hybrid solution for you, marrying cloud-based tools with ones you already own and use. With ANEXIO, you'll migrate to the cloud where it makes sense, and because it makes sense. It's a seamless solution that's as flexible as it is tailor-made.

“Our hybrid approach to Cloud Services makes the most of your existing, on-premise technology while enhancing it with innovative cloud-based technologies that deliver.”

## CLOUD SERVICES INCLUDE:

- Protection against Cyber threats
- Email protection, encryption and continuity
- Office 365 migration and support
- Hosting on dedicated private servers
- Complete data privacy
- Meeting regulatory compliance (HIPPA, PCI)

## Why ANEXIO Cloud Services?

Because Cloud Services like collaboration services, email marketing, accounting and customer relationship management are hosted by the experts at ANEXIO, you'll never have to worry about the management, maintenance or equipment that keeps them running smoothly, so you can focus on running your business. ANEXIO's Cloud Services will also help your company meet its compliance goals, with features like the HIPAA-compliant email settings and credit card security mechanisms.

With ANEXIO, you won't just migrate to the cloud; you'll be able to rely on our steadfast management once you're there. Our Cloud Services are a turnkey solution, from identifying opportunities to implementing new approaches and providing continual training and support.

Let ANEXIO help your company make a smooth transition to more effective, efficient work products and tools. Welcome to the cloud.

## WHAT YOU CAN EXPECT FROM ANEXIO'S CLOUD SERVICES

<b>Fixed rate support</b>	With ANEXIO, you always know what you're getting and why. Our fixed rate support allows you to budget for your technology without surprises.
<b>Efficient, cost-effective solutions</b>	Your technology should grow with you—and allow you to grow your business. With elastic, flexible cloud-based computing, pay only for what you use.
<b>Enhanced security</b>	Using ANEXIO's cloud services lets you offload responsibility for monitoring, maintaining and securing your systems. Our vulnerability management software lets us find potential weaknesses, and prevent them.
<b>Reliable Office 365 business class email</b>	Cloud-based collaboration is smooth and dependable with Microsoft Office 365, which boasts an availability rate greater than 99.9 percent.
<b>Enterprise-grade backup and recovery</b>	ANEXIO backs up your data to a highly secure, off-site location so it's never lost. Our disaster recovery capability means your information and applications are always available, even if your hardware is not.
<b>Cloud managed, high performance WiFi solutions</b>	ANEXIO can deploy internal and guest networks in one location or 50, seamlessly and uniformly managed from one central location in one transaction to provide you with the greatest visibility and security.
<b>Support from certified technicians</b>	Our experienced, certified team of technicians can help you migrate to the cloud without a hitch, and stay problem-free once you're there. ANEXIO's dedicated staff can solve problems quickly, without tying up your limited IT resources.
