ANEXIO is transforming the IT industry with Desktop to Data Center solutions designed specifically for customers seeking a smooth transition from legacy IT environments to a Hybrid Cloud infrastructure. The company's strategy is anchored by six Tier III SOC-2 certified data centers, an IT solutions center and a nationwide IP Network. ANEXIO's offerings include colocation, networking, cloud services, storage, disaster recovery, managed IT, and managed VoIP. Every ANEXIO product and service is backed up by United States-based customer support.

The ANEXIO Managed Services team is trained and certified to help organizations, like yours, operate more efficiently and grow more quickly. Our full range of IT services leverages technology to streamline your processes while driving bottom-line results. Over the years we have helped hundreds of organizations innovate, transform and simplify their operations.

Typical customer engagement
